HB 381

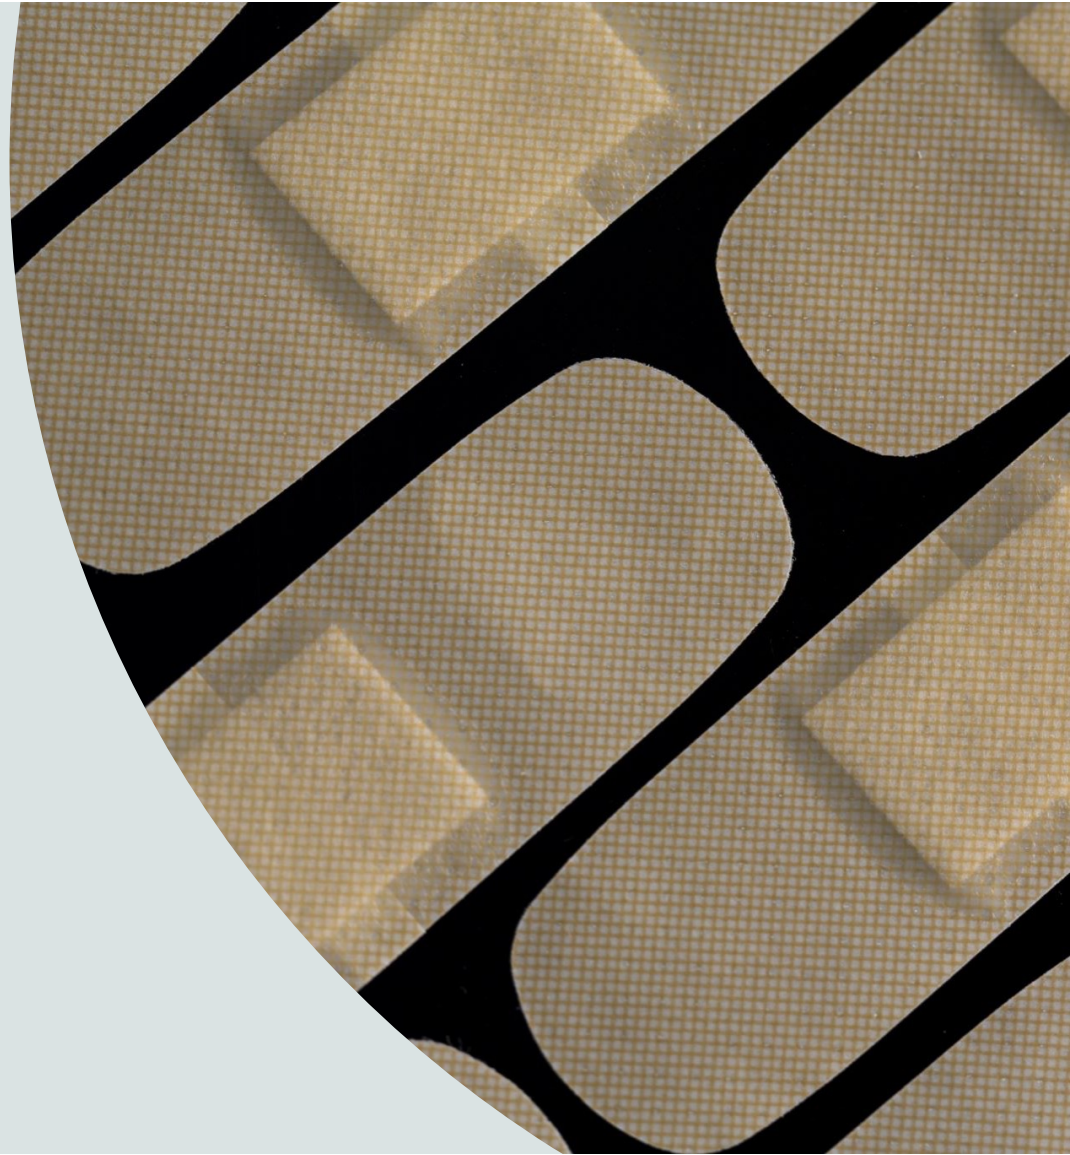

Amusement Ride Safety Act – The Basics

- Creates Amusement Ride Safety Committee and Director position within the Utah Department of Transportation
- Permit require for all rides operated in Utah
- Creates inspector certification procedures
- Requires annual inspection of all rides by certified inspector to gain operation permit
- Requires daily inspection by owner/operator
- Creates reporting requirements for serious injuries

Reporting

- Reportable Serious Injury must be reported to Director and Landlord (death, dismemberment, permanent disfigurement, permanent loss of use or a compound fracture)
- Serious injury must be reported to Landlord (injury which requires immediate admission to hospital and overnight hospitalization)

Operation After Injury

- A ride cannot be operated after a Reportable Serious Injury until authorized by the Director

Impact on Owner Operators

Annual inspection by certified inspector

Daily inspection by staff of mobile rides

Annual permit fee (\$100)

Inspection fee (set by inspector)

Minimum Insurance requirements

Impact on Events

- Minimal cost increase expected
- Potential for shutdown after Reportable Serious Injury (involved ride only, not all rides)
- Recommend policy on operation after Serious Injury
